

American College of
Healthcare Executives
for leaders who care[®]

Ibrahim Najamuddin, the Executive Director of 219 Health Network, is the 2018 recipient of the prestigious American College of Healthcare Executives (ACHE) Regent's Award. The ACHE Regent for the State of Indiana presented Ibrahim with the award at the Indiana Hospital Association Annual Membership Meeting on September 27th. Ibrahim was one of only two healthcare leaders in Indiana to receive this award.

The American College of Healthcare Executives Regent's Award recognizes ACHE members who are experienced in the field and have made significant contributions to the advancement of healthcare management excellence. The Regent's Award is based, in part, on leadership ability, innovative and creative management, local and state hospital and health association activities, civic and community activities and projects, the development of other healthcare professionals and ACHE involvement.

219 Health Network is an organization dedicated to providing affordable healthcare solutions to patients throughout Northwest Indiana. 219 Health Network provides quality care to those in need, including those who are uninsured or underinsured.
